

DEFINE: POTENTIAL

Emerging Leaders

This program is designed to support new leaders strike the balance between engaging with strategy, tasks, and others. This practical course outlines your role as a leader while providing the opportunity to learn different skills and techniques that support effective management. You will engage in an interactive workshop that includes personal reflection, dynamic group discussion, and exploration activities. Post-program, you will receive an executive coaching session to transform your learning into action.

Through this course you will:

- Understand management mindsets that create high-performing teams.
- Use coaching, delegation, and situational leadership to manage team workloads.
 - Discover your leadership purpose.
- Develop self-awareness using the DiSC Management diagnostic.
- Cultivate influencing skills to inspire others to high-performance.
- Learn how to manage performance through giving constructive feedback.
- Understand the psychological dynamics of leading a team through change.

“The Composition of Management work was very timely. At times I thought <the facilitator> had modelled this program just for me.”
